

SHUBHAM TURALKAR

Cloud Engineer | FinOps Specialist | AWS SAA

Mob : 7276100276

E-mail : shubhamturalkar@outlook.com

OBJECTIVE:

Cloud & FinOps Engineer with **6+ years of experience** in designing, optimizing, and governing AWS cloud environments across multi-account setups.

Specialized in:

- **Cost optimization (20–30% savings achieved)**
- **FinOps governance & chargeback models**
- **Highly available architecture design (3-tier, microservices)**
- **Automation using Terraform & CloudFormation**

Strong experience in aligning cloud usage with business and financial goals, with hands-on expertise in AWS services, cost analytics, and performance optimization.

CORE SKILLS :

-  **AWS & Architecture**
 - EC2, S3, RDS, VPC, IAM, ALB, Route 53, Lambda, ECS, Auto Scaling, CloudFront
-  **FinOps & Cost Optimization**
 - Cost Explorer, CUR, Budgets, Cost Allocation, Rightsizing, Governance, Forecasting, Utilization, Savings Plans, Reserved Instances, Tagging Strategy, Chargeback/Showback, Cloudability, QuickSight, Optimization Opportunities.
-  **Security & Governance**
 - IAM (least privilege), KMS, CloudTrail, Security Hub, SCPs, AWS Config
-  **DevOps & Automation**
 - Terraform, CloudFormation, Docker, ECS, Git, CodePipeline

PROFESSIONAL EXPERIENCE :

Infinx Services Pvt. Ltd

Apr 2023 - Present

Cloud Engineer – FinOps

Professional Summary :

Cloud Architecture & Engineering

- Designed and implemented highly available 3-tier architectures using ALB, Auto Scaling, RDS (Multi-AZ), and S3.
- Improved system availability to 99.9%+ for applications serving 30K+ users/month.
- Led infrastructure automation (Terraform + CloudFormation) reducing deployment effort by ~ 60%.
- Containerized workloads using Docker and deployed via ECS.

FinOps & Cost Optimization

- Led cloud cost optimization initiatives achieving ~ 20–30% cost reduction using:
 - EC2 rightsizing
 - Savings Plans adoption
 - Storage lifecycle optimization
- Built cost visibility dashboards using QuickSight + CUR, enabling business-level cost tracking.
- Implemented enterprise-wide tagging strategy, improving cost allocation and accountability.
- Configured AWS Budgets + anomaly detection, preventing cost overruns.
- Performed Savings Plan analysis & recommendation, improving utilization and coverage.

Governance & Multi-Account Strategy

- Worked with AWS Organizations for multi-account cost governance and billing visibility
- Implemented least-privilege IAM policies and SCP-based guardrails
- Standardized tagging & cost allocation across environments

Monitoring & Operations

- Reduced incident response time by 50% using CloudWatch dashboards and alerts
- Enabled centralized logging using CloudTrail & Security Hub

Unizen Technologies Pvt. Ltd

Jan 2020 - Feb 2023

Cloud Operations Engineer (Cloud Ops)

Professional Summary :

- Managed AWS infrastructure (EC2, VPC, RDS, S3, IAM)
- Performed RCA for production issues
- Monitored workloads using CloudWatch
- Supported deployments and environment stability

KEY PROJECTS :

Project 1: FinOps Cost Optimization Framework

- Designed cost optimization strategy using:
 - Cost Explorer + CUR
 - Savings Plans
 - Compute Optimizer
- Achieved 30% cost savings
- Built dashboards for chargeback/showback reporting

Project 2: Automated Resource Scheduling System

- Built solution using:
 - EventBridge + Lambda
- Automatically stopped non-prod resources
- Reduced idle cost by ~25%

Project 3: Real-time Cost Alerting System

- Implemented AWS Budgets → SNS → Lambda workflow
- Sent cost alerts to stakeholders
- Prevented budget breaches proactively

KEY ACHIEVEMENTS :

- Reduced AWS infrastructure costs by ~30 % without impacting performance or availability.
- Improved security compliance, resulting in ~70% reduction in security-related incidents.
- Standardized IaC and tagging practices across environments, improving deployment consistency and cost transparency.

CERTIFICATIONS :

- AWS Certified Solutions Architect – Associate **SAA-C03**
- Introduction To FinOps
- Introduction to FOCUS
- FinOps Certified Practitioner
- Cloud GreenOps Philosopher
- Generative AI Foundations Certificate from **UPGRAD**.
- **Brilliant Beginner of the Month** – Received twice at INFINTX Services Private Limited for outstanding performance as a new team member.
- **Spotlight of the quarter** – Awarded by INFINTX Services Private Limited for exceptional contributions and dedication towards work.

EDUCATION :

Bachelor in Engineering - Pune University

July 2018

ADDITIONAL INFORMATION :

- Strong collaboration skills with cross-functional teams
- Excellent problem-solving and analytical mindset
- Actively preparing for advanced Multi-Cloud & FinOps certifications
